

The United States Official Investigation of baking powder, made under authority of Congress by the Chemical Division of the Department of Agriculture, Washington, D. C., recently completed, shows the Royal Baking Powder to be a cream of tarter powder of the highest quality, pure and wholesome, and superior to all others in strength leavening powder, and general usefulness.

Frank Newlands publishes a long letter in the Gazette. He don't believe that a few hotel keepers at Tahoe should refuse to have the water empoisoned, and in order to save themselves a little inconvenience keep 150,000 acres of land from being cultivated. Correct.

John Maguire the manager of Grand Opera House, San Francisco has failed. The "Dark Secret" tank drama is what laid him out.

The finances got so low that the actors killed and ate the live ducks that floated so naturally on the waters of the Thames on the river scene.

Chas. Counter, of Verdi, who won \$2500 in the Louisiana lottery, was in the city yesterday. He put his winnings in San Francisco real estate, and is working at his old wages. If he had gone on a big spree and raised the devil generally, the moral element would have had a fine opportunity to point to him as a young man ruined by lottery luck.

Alfred Beach was found in his cabin on Pilot Creek Range, in Humboldt county, a few weeks ago, by some young men who were looking for stock. He was nearly famished and had been without a fire for several days. After eating everything of his supplies Beach had to kill and eat three dogs that belonged to him. The last one had to be devoured raw, as Beach had no salt, pepper or matches.

WANTED COMMISSION.

M. Cohn Stops Dr. Herrick on the Train.

On Monday evening, just as Dr. Herrick was boarding the train, he was served with papers making him the defendant in a law suit, with M. Cohn as plaintiff. Cohn claims that he assisted Herrick to sell his ranch for \$1,250 to a man in Gardnerville, and that there is due \$150 commission.

Dr. Herrick claims that he did not assist at the sale, and that it was done to annoy him.

The Doctor was only going away for about two weeks. When he was served with the papers he went right on to Reno, but on the advice of his attorney, Mr. Summerfield, returned yesterday morning. The suit will be tried in the Justice Court today.

BREAKING THE ROAD.—John F. Moody and the toll road company have a force of men now at work opening the road to Tahoe. On Thursday E. S. Church drove a team and wagon two miles from town and yesterday made another mile toward the lake. The snow is deep in places, but as soon as a wagon once goes through it, it disappears with astonishing rapidity. A number of men are at work leveling off the drifts. Dirt is sprinkled over the snow which attracts the heat and it is said that where this is done the snow melts four times as fast as it would with out it. In this way the snow is said to settle six inches a day. Tomorrow all the able-bodied men at Tahoe City propose to turn out and help open the road and will keep at it until the result is attained. On May 1st the mail service becomes daily. Stages will run to the toll house five miles from town. Probably by the 10th stages will run through to Tahoe and by the 20th of the month the road will be opened for wheeled vehicles. By June 1st the lake hotels will be open and the tourist season will commence.—Truckee Republican.

MULTUM IN PARVO.—Oliver Roberts has compiled a small encyclopedia relative to the Lake. It tells all about the steamers' trail, the fares, the time-tables, heights of mountains, depths of the Lake at various points and distances from everywhere to everywhere. "Around the world, via Bellevue House Lake Tahoe to Arlington House, Carson City, 22,033 miles. He also tells how far it is from the Bellevue Hotel to Yokohama, Panama, Paris, London and elsewhere. The card is folded like a book of convenient size for the pocket and will be taken away by guests as a reference. He is getting 10,000 printed at the APPEAL office and proposes to advertise the Lake this year all over the world.

"A SOAP BUBBLE"—Is playing to a splendid business. The piece has certainly caught on in Cincinnati. The light and pleasing quality of the play, from a popular standpoint, with its popular and capable interpreters, renders its performances very acceptable to audiences assembled. Jerome and Miss Foster are two bright and particular stars in the comedy firmament that have not only the faculty of making a good impression at first, but also the genuine talent that will enable them to bear a long acquaintance.—Cincinnati (O.) Commercial.

THE MINING BOOM.—There is great rejoicing among the silver men all over the coast over the prospects of a mining boom. When silver strikes 110, then the old deserted camps will begin to be galvanized with new life. Men will be put to work, the idle stamp will begin to clank and the inert machinery whirr once more. Then men will begin to limber up, hang Windom in effigy and speculate in stocks.

The State papers are just finding out that Evan Williams is not a candidate for Governor. The APPEAL told them they could bet on this about three months ago.

JAMES SHAW.—Yesterday James Shaw, Chairman of the Board of County Commissioners of Lyon was in the city. James Shaw is regarded with pride and approval by his constituents and when he moves about the state he is pointed out on the streets as the man who had the nerve to make the State Board of Examiners swallow their action on the special election bills. The board insisted that they had taken legal advice from the Attorney General and that their position was impregnable. "We'll see about that," said Shaw, "I know a little law myself and I'll just get into court and see what the regular judges think of our position." Shaw had a little trouble in the matter as well as the board and so he brought the Board before the bar of the courts and proved to the satisfaction of thousands of tax-payers that he and the Commissioners of Lyon were correct. He was the pioneer in this litigation and now the other counties are following his trail. Shaw is a level headed man and the people of Lyon talk of running him for State Treasurer.

Effect of the Expansion.

NEW YORK, April 28.—The Mail and Express says: The expansion of the value of silver has had a decided effect on the foreign market, for while the exchanges of Paris, Vienna and Berlin were unsettled by fears of trouble with the populace on account of the May-day parades, the London market was practically buoyant. The rise in silver shows how artificial its depression was. A curious collateral result has been the rise of 5 per cent in Indian rupee paper. The rise in Mexican railways has been even more important. This means so much more added to the net earnings. If the rise should go no further the advance the last fortnight will net the Mexican Central over a quarter of a million profit. It will be very strange if the advance does not lead to considerable increase in the number of certificates issued on large deposits of bullion with the Mercantile Trust Company.
